Nancy Johnson, Esq.  
Mail Stop Petition  
Commissioner of Patents  
Washington, D.C. 22313-1450

Dear Ms. Johnson:

In response to the Decision Refusing to Accord Status under 37 CFR 1.37(b) mailed 2005, June 29, attached are the documents needed to address your concerns with the above Application, Number 09/912,009. I have attached a statement as to why the abandonment was unintentional and a respond to put the application in condition for allowance

Respectfully submitted,

  
Jeffrey M. Furr, Esq.

**Request for Reconsideration of Petition for Unintentional Abandonment  
for  
Patent Application No 09/878,578**

In response to the correspondence of June 29, 2005, I, as a duly representative of Steve Guilkey, party of interest, hereby declare:

That the delay in filing the Response to the Notice of Abandonment was Unintentional. I still believe that the Abandonment was Unavoidable as a Response was filed via fax to the last fax number that I had for said Application within the proper three month Response time but was lost in the Patent Office. Applicant called Examiner and left a message to confirm that Examiner had received the Fax.

The Unintentional Abandonment petition is proper since after receiving the response to the Petition for Unavoidable abandonment I discussed with the Applicant the results and the need to move forward with an Unintentional Abandonment petition at that time. Applicant was disheartened by the whole process and discussed the situation with his partner in an attempt to raise the needed funds as they are individual inventors. Since the time deadline to file the Unintentional was drawing near, I volunteered to pay the Unintentional filing fees so the application would be revived and so the Inventors' view of the patenting process would not be so negative.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Signed at Johnstown, Ohio, this 29st day of August, 2005
